

# CAPABILITY STATEMENT

Originated in 2004, Trimteck is an ISO 9001-2015-certified American manufacturing company with a distinct focus on engineering high-quality, cost-effective flow, pressure, and temperature control solutions and equipment for critical processes. Our products are currently helping customers safely improve quality, optimize throughput, and reduce emissions and costs across an array of industries in more than 50 countries.

We build a comprehensive line of control valves – and variety of actuators, positioners, severe service trims, and other accessories – that our applications engineers and representatives use to solve even the most complex flow control problems quickly and economically. All of our products comply with the Buy America Act.
